How to Determine the Legibility of the Text

For a 17-inch screen, stand 2 meters away. If you can see your presentation (slide + text) clearly (presentation 100% image) there shouldn't be problems seeing this presentation in a lecture room.

If you use a font size of 24, your text is readable at the back of the room.

Example: On a screen of 3.00 x 2.00m, you can read the 24-font size at a distance of 20m. If you use a bolder text, the legibility will improve.

**Don't forget!
Always make
sure you
bring a back
up of your
presentation!**

All presenters must register to the meeting.

B) Posters with Presentation (PP) Guidelines

The quality of the meeting is extremely dependent on the way you present your work.

The ESPU scientific Committee would like to remind you of a few key points:

- Make your poster visually interesting, but not overelaborate.
- Put your poster on the assigned poster board in the ESPU Poster Area during the entire congress.
- Stick to an easy to understand format: usually abstract methods, results and conclusions.
- In addition to the poster you are allowed to give a:
 - PP – ESPU meeting: 3 minutes oral presentation followed by 3 minutes of discussion.
 - PP – Nurses meeting: 3 minutes oral presentation followed by 2 minutes of discussion.
